2000

BRAND BIRTH

This event occurred at the edge of the millennium. The founder of the brand AURORA was a native of the countries of the former USSR, a young and energetic man who dreamed of improving the lives of his compatriots and giving them the opportunity to use high-quality household appliances. During this period, the concept of the brand, its mission and goals were formed. The brand name was chosen in honour of the goddess of the morning dawn, and the main logo symbolizing the sail – it is the desire to move towards the light and the beginning of a new day, and the people`s hopes for the better.

2002

START OF PRODUCTION

First models of small household appliances from the AURORA brand, a vacuum cleaner and a multicooker, were put into production as household items of the highest demand at that time. This was the beginning of the production of a wide range of small household appliances under the brand AURORA. Today, in the lineup, there are both products with exclusive design and content, produced specifically for each market, and the mass-market category.

2006

COOKWARE PRODUCTION

It was decided to produce a line of dishes and kitchenware, which allowed the brand to strengthen its position, and consumers were given the opportunity to discover new brand advantages. Thanks to the start of crockery production, the brand was able to increase the number of covered segments in the sales markets and expand the geography of sales.

2013

NEW MODERN STRUCTURE

The crisis in the global markets of 2008-2012 has not only caused a considerable reestablishing of both organizational structure and product line of the company, but also initiated the rebranding process. Forming a modern structure of the company made it possible to open and develop divisions around the world: production is in China and international trade and design development departments are in Canada. We also have initiated preparations for the opening of warehouses and representative offices in the European Union.

2016

ENTERING THE EUROPEAN MARKET

AURORA trademark received official recognition in the European Union market - the products received CE conformity certificates. This was the impetus for entering the European market and marked the initiation of work with European partners as well as opening of warehouses and partner offices in the Europe.

2017

ENTRY TO THE MARKETS OF THE FORMER USSR COUNTRIES

After a successful start of sales in the EU market, it was decided to enter the markets of the former Soviet Union. AURORA products have been certified in accordance with the requirements of the Customs Union, Ukraine and individual regional standards. AURORA appliances and crockery are sold in the markets of Russia, Ukraine, Belarus, Moldova, Georgia and Azerbaijan.

2019

KEEPING UP WITH TIME

The most significant events of this year can be considered the technological renewal of the brand, which implies not only the release of new modern product lines, but also the launch of B2B portal for customers; updated site design, and preparation for work with the world's largest Internet sites. As a result, AURORA technology has successfully started on such sites as Amazon and eBay.

care of your life

brand name

The brand name was chosen in honour of the goddess of the morning dawn, and the main logo symbolizing the sail – it is the desire to move towards the light and the beginning of a new day, and the people`s hopes for the better.

our mission

AURORA's brand Mission is to give everyone the opportunity to enjoy life, spend more time with their family, loved ones and friends, spend time on their hobbies, and AURORA will take care of home and kitchen.

our customers' needs

All the appliances we produce are designed to meet the needs of our customers, and as the needs grow, we offer more and more innovative products. We follow the novelties of the market, demand in every sphere of our life and we try to satisfy every need as quickly as possible.

utility. ecology. safety. accessibility

Therefore, each new AURORA product is developed and researched from all points of view – utility, ecology, safety, accessibility for all social layers. Focusing on the consumer is an integral part of the AURORA development strategy.

AU 182 Electric kettle

Body material: stainless steel
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

Convenient lid opening

Power button with indicator light

AU 183 Electric kettle

NEW

360° rotation of the kettle

Body material: stainless steel
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 016 Electric kettle

NEW

360° rotation of the kettle

Body material: stainless steel
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3336 Electric kettle

Lid opening button
and power button

Body material: stainless steel
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3512 Electric kettle

Lid opening button
and power button

Body material: stainless steel
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3513 Electric kettle

Convenient lid opening

Body material: stainless steel
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3402 Electric kettle

Inner part of the body:
stainless steel

Body material: stainless steel/plastic
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 336 Electric kettle

NEW

Power button
with indicator light

Body material: stainless steel/plastic
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1500–1750 Watt

AU 337 Electric kettle

NEW

Inner part of the body:
stainless steel

Body material: stainless steel/plastic
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1500–1750 Watt

AU 3016 Electric kettle

Lid opening button and power button

NEW

Body material: stainless steel/plastic
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1500–1750 Watt

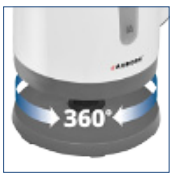
AU 3017 Electric kettle

Inner part of the body: stainless steel

NEW

Body material: stainless steel/plastic
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1500–1750 Watt

AU 3334 Electric kettle



360° rotation of the kettle

Body material: plastic
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3506 Electric kettle

360° rotation of the kettle

Body material: plastic
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3504 Electric kettle

Convenient lid opening

Body material: plastic
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3509 Electric kettle

360° rotation of the kettle

Body material: plastic
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 338 Electric kettle

Convenient lid opening

NEW

Body material: plastic
Maximum volume is 2.0 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1500–1750 Watt

AU 339 Electric kettle

Lid opening button and power button

NEW

Body material: plastic
Maximum volume is 2.0 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1500–1750 Watt

AU 3018 Electric kettle

Convenient lid opening

NEW

Body material: plastic
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1500–1750 Watt

AU 3010 Electric kettle

360° rotation of the kettle

Body material: plastic
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1500–1750 Watt

AU 3411 Electric kettle

Removable water filter

Body material: plastic
Maximum volume is 1.0 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 900–1100 Watt

AU 3507 Electric kettle

Lid opening button and power button

Body material: heat-resistant glass
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 180 Electric kettle

Removable water filter

Body material: heat-resistant glass
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3505 Electric kettle

Convenient lid opening

Body material: heat-resistant glass
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3415 Electric kettle

360° rotation of the kettle

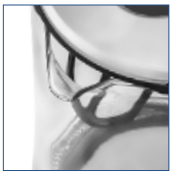
Body material: heat-resistant glass
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3414 Electric kettle

Lid opening button and power button

Body material: heat-resistant glass
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

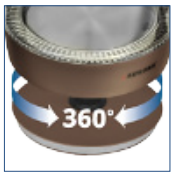
AU 3330 Electric kettle



Removable water filter

Body material: heat-resistant glass
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3331 Electric kettle



360° rotation of the kettle

Body material: heat-resistant glass
Maximum volume is 1.7 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3014 Electric kettle

Power button

NEW

Body material: heat-resistant glass
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1500–1750 Watt

AU 3518 Electric kettle

Lid opening button and power button

Body material: heat-resistant glass
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1850–2200 Watt

AU 3015 Electric kettle

Convenient lid opening

NEW

Body material: heat-resistant glass
Maximum volume is 1.8 liters
Connection to the network via stand
Cord storage compartment
Automatic switch off
Power: 1500–1750 Watt

AU 414 Electric coffee maker

Type: espresso
Maximum volume is 1.6 liters
Steam pressure: 15 bar
Nozzle for supplying steam under pressure
Detachable filter holder
Removable drip tray
Indication of work
Measuring spoon-sealer: 10 g
Power: 850 Watt

“YOU CAN DO
anything for coffee,
EVEN GO TO WORK”

Bill Gates

Cappuccino

1.6 liters removable transparent water tank

AU 3141 Electric coffee maker

NEW

Up to 10 cups
of arousing coffee

Removable reusable filter
for ground coffee

Type: drip
Volume: 1.25 l
Permanent filter
Coffee preheating
Indication of work
Water level indicator
Max. Power: 1000 Watt

AU 3142 Electric coffee maker

NEW

up to 10 cups of arousing
coffee

Removable reusable filter
for ground coffee

Type: drip
Volume: 1.25 l
Permanent filter
Coffee preheating
Indication of work
Water level indicator
Max. Power: 1000 Watt

Cappuccino

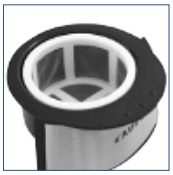
Type: espresso
Cappuccino
Volume of the flask: 2-4 cups
Steam pressure: 4 bar
Nozzle for supplying steam under pressure
Removable drip tray
Measuring spoon-sealer: 10 g
Max. Power: 800 Watt

AU 415 Electric coffee maker

Cappuccino

Type: espresso
Cappuccino
Volume of the flask: 2-4 cups
Steam pressure: 4 bar
Nozzle for supplying steam under pressure
Removable drip tray
Measuring spoon-sealer: 10 g
Max. Power: 800 Watt

AU 3140 Electric coffee maker



Permanent filter

Type: espresso
Two 125 ml cups
Permanent filter
Indication of work
Max. Power: 450 Watt

AU 349 Electric coffee grinder

Adjusting the degree of grinding

Housing material: plastic
Adjusting the degree of grinding
Method of grinding: millstone
Pulse mode
Protection against accidental activation
Bowl of coffee grinder 120 g
Container for ground coffee for 12 cups
Power: 100 Watt

AU 346 Electric coffee grinder

Material of the knife for grinding coffee beans: stainless steel

The possibility of grinding coffee beans, spices, preparing cocktails
Protection against accidental activation
Method of grinding: knives
Housing material: metal
Material of the knife for grinding coffee beans: stainless steel
Removable bowl blender: 70 g
Removable bowl coffee grinder: 70 g
Power: 200 Watt

“THE FRESH SMELL OF COFFEE
**soon wafted through the apartment,
the smell that separates**
NIGHT FROM DAY”

Haruki Murakami

AU 3443

AU 147

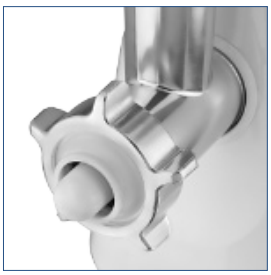
“EVERYTHING IN LIFE has weight, but not everything IS WEIGHTED”

Leonid S. Sukhorukov

“THERE IS MEAT HERE!
I decided —
that I would
LIVE HERE!”
Alice Baskerville. Pandora Hearts

AU 3462 Electric meat grinder

Reverse function
Attachment for cooking “Kebbe”
Nozzle for homemade sausages
Three kinds of grinding plates
Productivity: up to 1.9 kg/min
Max. power: 1200 Watt



Attachment for cooking “Kebbe”

Nozzle for homemade sausages

AU 3461 Meat grinder with a screw juicer for soft vegetables, fruits and berries

Reverse function

Two kinds of grinding plates

Reverse function
Attachment for cooking “Kebbe”
Nozzle for homemade sausages
Two kinds of grinding plates
The nozzle-juicer
Cross-shaped knife made of stainless steel
Productivity: up to 1.5 kg/min
Max. power: 1000 Watt

AU 3463 Electric meat grinder

Reverse function

Reverse function
Attachment for cooking “Kebbe”
Nozzle for homemade sausages
One grinding plate
Cross-shaped knife made of stainless
Productivity: up to 1.5 kg/min
Max. power: 1000 Watt

“DON’T BE ANGRY
because vitamins
are
disappearing —
CIPOLLINO”

Gianni Rodari

Neck diameter: 75 mm

Neck diameter: 65 mm

AU 3341 Electric juice extractor

Speed processing modes: 2
Centrifugal operation principle
Pulse operation mode
Neck diameter: 75 mm
Material of filter float: stainless steel
The volume of the pulp tank: 1.7 l
The volume of the juice tank: 1.1 l
Direct juice supply
Power: 1500 Watt

AU 3343 Electric juice extractor

Speed processing modes: 2
Centrifugal operation principle
Neck diameter: 65 mm
Material of filter float: stainless steel
The volume of the pulp tank: 1.4 l
The volume of the juice tank: 0.5 l
Direct juice supply
Power: 1000 Watt

AU 3457 Multicooker

Safe use

Possibility of cooking delay up to 24 hours
"Manual mode" program (possibility to adjust the cooking time)
Heat maintaining
Automatic cooking programs: 45
Book of recipes
Power: 700 Watt

AU 252 Multicooker

The lid is made of a high-quality glass

Possibility of cooking delay up to 24 hours
"Manual mode" program (possibility to adjust the cooking time)

“UNTIL YOU GAVE UP ON YOURSELF, **until you fell —** YOU ARE ALIVE. **Death for a woman begins with her** UNCURLED HAIR **and** WRINKLED DRESS”

Reflections of Eterna (Vera Kamsha)

Ceramic coating of nozzles

↘ AU 3579 Multistyler

Interchangeable attachments: conical forceps with a diameter of 16-25 mm; plates for straightening in the size 29x80 mm; nozzle for curles
Heating temperature: 210° (±15°) C
Light indicator of operation
Ceramic coating
Removable attachments
Power: 25-45 Watt

AU 3578 Electric hair brush curler

Perfect styling

Heating temperature: 180° (±15°) C
Light indicator of operation
Ceramic coating
Unheated tip
360° cord rotation
Power: 25 Watt

AU 3576 Electric hair conical curler

Perfect curling

Heating temperature: 200° (±15°) C
Light indicator of operation
Ceramic coating
Diameter of the working surface: 16-25 mm
Unheated tip
360° cord rotation
Power: 30 Watt

AU 3577 Electric hair curler

Perfect curling

Heating temperature: 200° (±15°) C
Light indicator of operation
Ceramic coating
Diameter of the working surface: 1 9 mm
Unheated tip
360° cord rotation
Power: 25 Watt

AU 3571 Electric hair curler

Perfect curling

Heating temperature: 200° (±15°) C
Light indicator of operation
Ceramic coating
Diameter of the working surface: 19 mm
Unheated tip
360° cord rotation
Power: 25 Watt

AU 3572 Electric hair curler

Perfect curling

Heating temperature: 200° (±15°) C
Light indicator of operation
Ceramic coating
Diameter of the working surface: 9 mm
Unheated tip
360° cord rotation
Power: 25 Watt

AU 3573 Electric hair conical curler

Perfect curling

Heating temperature: 200° (±15°) C
Light indicator of operation
Ceramic coating
Diameter of the working surface: 16-25 mm
Unheated tip
360° cord rotation
Power: 30 Watt

AU 3273 Electric hair straightener

Perfect straightening

Heating temperature: 200° (±15°) C
Light indicator of operation
Ceramic coating
Plates for straightening in the size: 100x26 mm
Unheated tip
360° cord rotation
Power: 30 Watt

AU 3274 Electric hair straightener

Perfect straightening

Heating temperature: 200° (±15°) C
Light indicator of operation
Ceramic coating
Plates for straightening in the size: 86x22 mm
Unheated tip
360° cord rotation
Power: 30 Watt
